K1 K1 Waterproofing Products Overview

K1 is a versatile interior/exterior waterproofing solution featuring elastic waterproof compound technology. Its thermal energy reflection and waterproofing capabilities deliver significant energy savings during summer months. Utilizing specialized pigments to prevent indoor temperature rise, K1 offers superior waterproofing and freeze resistance while strengthening building structures through enhanced durability and adhesion.

Unlike competitors who use two-part systems requiring separate mixing of base and hardener, K1 products feature convenient single-component formulation with all ingredients pre-mixed in one package. Additionally, K1 is an environmentally friendly solution.

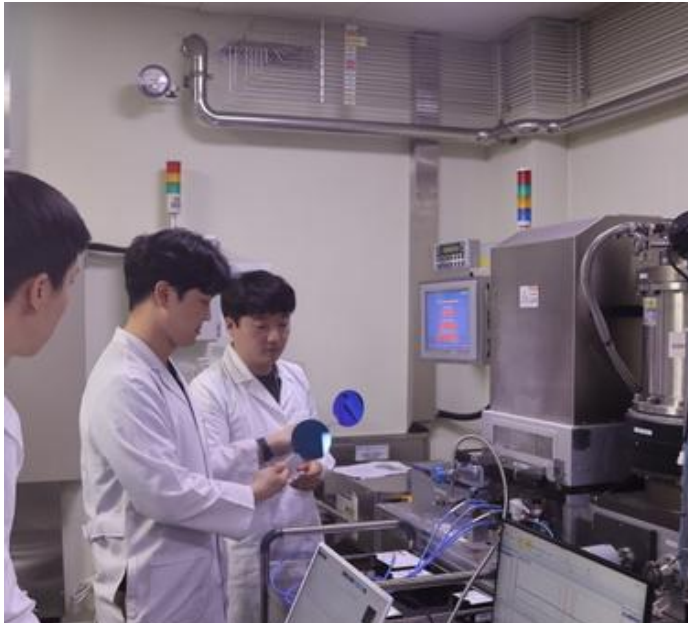

The product's core competitive advantage is its exceptional elasticity - capable of covering large cracks and demonstrating up to 300% elongation capacity.

K1 Special Ultra-Powerful Waterproof Sealant

Our Vision and Mission

**100% Waterproof Barrier - Not Even a Drop
Gets Through 10-Year Safety Guarantee with
Advanced Waterproofing Technology**

10-Year Protection
Guaranteed Safeguarding
Your Space with

technology

Imported Korean Raw Materials

We build global supply networks to
ensure both stable raw material
supply and consistent quality.

K1 Special Ultra-Powerful Waterproof Sealant

Our Vision and Mission

100% Waterproof Barrier - Not Even a Drop Gets Through 10-Year Safety Guarantee with Advanced Waterproofing Technology

Exclusive Vietnam Production
Direct manufacturing in Vietnam allows us to guarantee quality, ethical production, and sustainability

20 Years of Korean Market Experience
20 years of market-proven expertise in Korea. We promise the same unwavering trust moving forward.

Single-Component Waterproofing Solution
With single-component technology, anyone can easily deliver superior waterproofing performance.

K1 Waterproofing Product Certifications

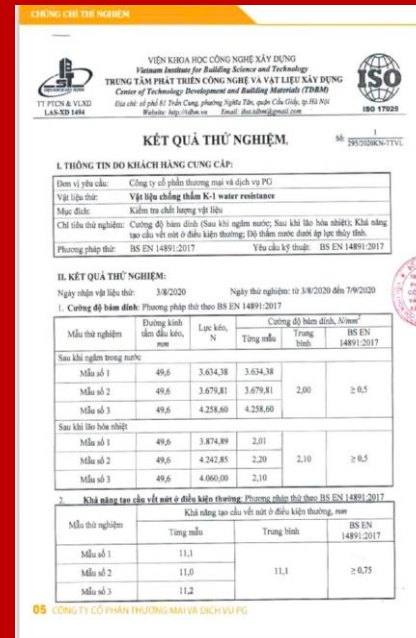

Our product has received quality and safety certifications from recognized domestic and international organizations. Certification documents can be provided upon request.

K-1 (CT-18)

1 Primer | 144 m²
2 Mid Coat | 72 m²

K-1 (CT-10)

1 Primer | 80 m²
2 Mid Coat | 40 m²

K-1 (CT-05)

1 Primer | 40 m²
2 Mid Coat | 20 m²

K-1 (CT-01)

1 Primer | 8 m²
2 Mid Coat | 4 m²

K1 Special Ultra-Powerful Waterproof Sealant

Uses and Features

Top Coat Application and Recoatable over Existing Coatings

Unlike conventional water repellents, it allows for subsequent coating with water-based paint after application.

Eco-friendly Non-toxic Waterproof Material

K-1 products are manufactured using eco-friendly materials. They are made with ingredients that are harmless to the human body, resulting in odorless and non-toxic products that can be used with confidence.

Single-component Waterproof Material - Easy Application

Designed for convenient DIY waterproofing, this single-component formula enables easy waterproof application anywhere you need it. Easy application with brush or roller!

Produced with Imported Korean Raw Materials

Taking advantage of Southeast Asia's hot and humid climate characteristics, we have established direct production in Vietnam based on extensive research teams and experience gained in Korea.

Installation and Construction Manual

Surface Preparation

Clean the work area of dust, foreign matter, oil, and other contaminants. Using a high-pressure washer or sponge is effective.

01

02

Surface Evaluation

Check the surface for cracks or holes and repair any found defects. Cracks should be filled with silicone or waterproof sealant.

Primer Application

Apply primer evenly to the cleaned surface using a roller or brush. This step is important for improving the adhesion of the waterproofing material.

03

04

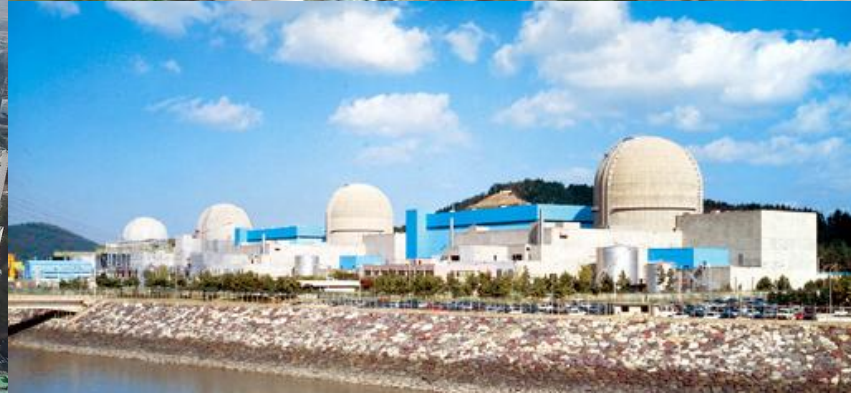

K1 Waterproofing Treatment

Once the primer is dry, apply K1 waterproofing agent to the proper thickness. Typically, 2-3 applications are recommended, ensuring each coat is applied only after the previous coat has fully dried.

Absolute water barrier technology that blocks every single drop - Specialized waterproofing ensures 10 years of reliable protection..
